

The Centre for Research in Energy and Energy Conservation (CREEC) is a not-for-profit organization whose mission is to enhance access to modern types of energy through applied research, training and consultancy in East Africa.

The centre works closely with the private sector, local government, CSOs, and international organisations.

CREEC provides services in the following thematic areas:

- Rural electrification
- Energy for productive use
- Energy for household use
- Energy efficiency
- Energy entrepreneurship
- Energy testing
